<p>Maker: Baja Son</p> <p>Main Topic/Issue: Literature and Service Material: Development process</p> <p>Proposal: 1. We the Bajason Region have seen that one of the items the World Board likes to emphasize is the use of the Literature/Project Survey as a tool in prioritizing projects for consideration at the World Service Conference. The Survey technique is touted as a way to avoid regions making motions for specific literature projects. There are issues with the Literature Survey as a mechanism to aid in fellowship decisions. To begin with, the Literature Survey only has items sent to the fellowship and placed there by the World Board. There is no published mechanism to nominate literature projects to be in the next survey. The Survey itself does not give any context or perspective on what the item would be, or the unmet need or the reason it is being requested. Therefore the fellowship has no background information to make an informed judgement on what is needed. In order for the Literature Survey to be an effective tool in determining the value of given submissions there needs to be an explanation of what is being proposed and how this fills an unmet need.</p>	30	58

THE WORLD SERVICE CONFERENCE

“Our common welfare should come first; personal recovery depends on NA unity.” Nowhere in our service structure is this tradition more evident than at the meeting of the World Service Conference. Guided by our Twelve Traditions and Concepts, it is the one point in our structure where the voice of NA as a whole is brought to view and expressed on issues and concerns affecting our worldwide Fellowship. The World Service Conference is not just a collection of regions; its concerns are greater than just the sum of its parts. The conference is a vehicle for Fellowship communication and unity: a forum where our common welfare is itself the business of the meeting.

Conference deliberations serve the needs of a diverse membership of different languages and cultures and address the challenge of how to provide effective services to NA groups around the world. The conference works for the good of all NA, taking into account both present and future needs.

Narcotics Anonymous is a life-saving program. Our founders envisioned a worldwide fellowship of addicts when there was only one group and one meeting in the world. Our founders established a world service structure to help carry the message to addicts everywhere, at a time when Narcotics Anonymous existed in only one country unified by a single language and culture. With an unshakable faith and belief in Narcotics Anonymous, born out of personal experiences of recovery, the creation of the World Service Conference followed in 1976. Those members—dreaming of a better day for addicts everywhere—embarked on a mission to bring together those few NA groups, which existed at that time into a unified fellowship. Knowing from personal experience that the old lie, “once an addict, always an addict,” was dead, that *we do recover*, our predecessors labored to ensure the continuation and growth of NA everywhere.

That vision continues. In each biennial meeting of the World Service Conference, our Fellowship comes together in one place at one time to share experience, strength, and hope with each other. The purpose remains to solve common problems among those already here and fortunate enough to have discovered this new way of life and—more importantly—to redouble our efforts to further our primary purpose: to carry the NA message to the addict who still suffers.
